

## **The Medical Centre Family Health Team**

Our Day Clinics, After Hours Clinics and Weekend Clinics continue to be available for all patients of our Family Physicians. During the current COVID-19 pandemic, the main changes to the operation of these clinics are as follows:

- 1) **Walk-in appointments are no longer available.** Please phone first for all appointment requests or medical concerns.
- 2) **You may be offered a virtual appointment** (phone or video) instead of an in-person appointment depending on the nature of your medical concern.

### **HOURS:**

Day Clinics:

Mon to Friday: 9am to 4pm

Evening Clinics:

Mon to Thurs: 5pm to 8pm

Weekend Clinics:

Saturday: 8am to 2pm

Sunday: 8am to 2pm

It is also important to remind you that your regular Family Physician remains available during their regular office hours. Please continue to contact them as you normally would for any medical concerns during regular office hours.

For general information on these clinics, including the types of medical concerns that are appropriate for these clinics as well as those that are best addressed by your regular physician, please visit: [Services/Day, Evening](#) and Weekend Clinics
